

DAY 2 : Session - VI

Working Group

In order to elicit views and share experiences, three Working Groups discussed the Conference sub-themes from a cross cutting perspective. These groups focused upon the following core areas.

- Working Group -I** : Identification of bottlenecks and strategies to overcome these;
- Working Group -II** : Road map of the educational interventions of adolescence issues through open schooling;
- Working Group -III** : Net-working for adolescence education.

Three parallel thematic Working Group Sessions deliberated on the given concern. Each group considered a number of sub-themes, providing the opportunity to review and propose action. The Working Group finally drafted a set of recommendations for the specific concern. These recommendations were placed in the plenary and further discussed. The finalized recommendations were presented in Session VII and are given in the next section.
